Work Experience

Role : Software Engineer
Workspace : HCL Technologies
Technology : .NET Full Stack
Account : Banking - Commonwealth Bank of Australia(CBA)
Roles & Responsibilities: Developing, Testing, Designing and Maintaining Software System
Application worked : CommSee
Experience :

- Developing and Enhancing CommSee Application for Commonwealth Bank of Australia (CBA)Currently working on the CommSee application, a core platform for the Commonwealth Bank of Australia (CBA). My role involves developing new functionalities and implementing enhancements as per evolving business requirements. I collaborate with cross-functional teams to ensure that the application meets the needs of users and adheres to the best practices in software development.

- Additionally, I focus on optimizing the application's performance and ensuring seamless integration with other systems. As part of this work, I address issues, conduct rigorous testing, and ensure timely delivery of updates, always keeping security and scalability in mind.

- During my training, I developed complete web applications utilizing Web API, MVC, and MySQL and obtained a certification showcasing my proficiency in these technologies.
